

CSCI 136:  
Data Structures  
and  
Advanced Programming

Lecture 2

Java Crash Course

Instructor: Dan Barowy

**Williams**

PRE-LAB 0

Tuesday OK, but no later!

Outline

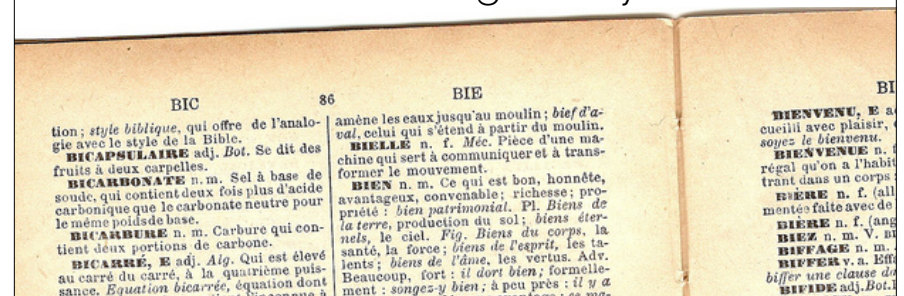

1. Study tip
2. Java crash course, part 2

Life skill #2:

Every course is a "foreign language"

To learn effectively, study the vocab.

Maintain a "glossary."

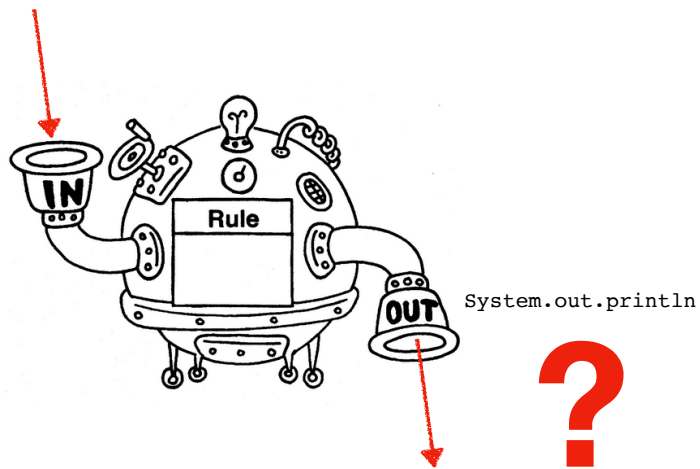

Java crash course, part 2

A note on my teaching philosophy:  
bugs are a wonderful teacher.

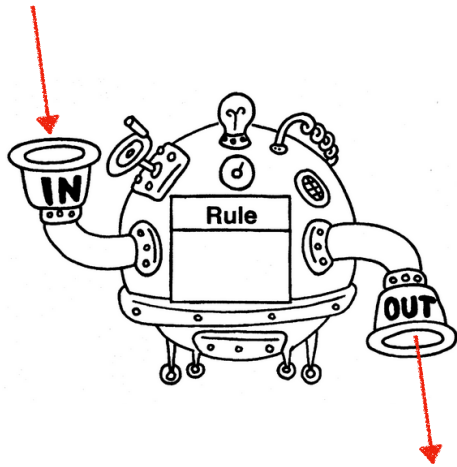

I will make mistakes (sometimes intentionally); and we **will fix them together**.

?

Input (code)

## Input

1. Static input (constants)
2. Dynamic input
  1. **args**
  2. **scanner**

## Recap & Next Week

Today we learned:

- More Java
- Input/output
- Loops

Next class:

- Program Design
- Types
- Classes
